Landmark Services Cooperative has an exciting opportunity for a **Liquid Plant Operator** within our Agronomy Division!

**POSITION SUMMARY**

The **Liquid Plant Operator** provides technical support for safe and efficient delivery of required nutrients and chemical pesticides essential for proper crop growth and development.

**Essential Functions:**

- Coordinates all manual and automated liquid plant operations.
- Coordinates liquid dispatch of custom application equipment along with liquid UAN side dress applicators.
  - Blend liquid fertilizer and pesticides using a computer control system
  - Track Incoming and outgoing fertilizer and pesticides as it pertains to inventory control
  - Maintain the plant’s plumbing and computer systems
  - Dispatch a fleet of trucks and spray equipment to best meet Landmark and customer needs utilizing AgLogic
  - Work closely with a team of Applicators and delivery personnel to ensure efficiency
- Coordinates Aerial Fungicide applications in conjunction with other dispatchers in the North Hub.
- Assists with Grid Soil sampling and Precision Ag Data Management.
- Coordinates repair and maintenance of liquid plant and herbicide equipment.

**Education Requirements:**

- Minimum HS Diploma or GED required
- Associates Degree or Bachelor’s Degree preferred

**Experience:**

- 1-3 years Agriculture experience preferred

**Required Knowledge, Skills and Abilities:**

- Familiar with Precision Ag operations
- Strong computer skills
- Ability to work as a team, coordinating efforts toward organizational goals
- Strong detail orientation skills
- Ability to read and comprehend instructions and information
- Ability to prioritize, multi-task and meet deadlines
- Strong communication and interpersonal skills
• Ability to function independently where appropriate but to recognize when issues escalate and need to be referred to other resources
• Ability to assess a situation and determine the best course of action (Independent judgment)
